EDUCATION & QUALIFICATIONS

PGCE, University of Sussex · **QTS**, Future Teacher Training expected July 2026
BA Classics, Christ's College, Cambridge — 2:1 2022–2025
Dissertation in classical reception — First (74), supervised by Professor Carrie Vout
Antiquity's Muscles in Modern Media: Female Physical Culture Through a Classical Lens
A levels: Latin (A*), Art (A*), History (A*), Mathematics (A*) · **EPQ**: A* (50/50) — *Hercules: Hero or Hooligan?* 2020–2022
GCSEs: Mathematics (9), Biology (9), Chemistry (8), Physics (9), English Language (8), English Literature (9), 2018–2020
Latin (9), French (7), History (9), Religious Studies (9), Art (9)

TEACHING EXPERIENCE

Trinity Academy, Brixton · Main Placement Autumn & Summer Terms 2025–26
Taught Latin to Years 7–10 using the Latin Excellence Curriculum, designing supplementary resources and supporting Eduqas language and literature provision at KS4. Assisted with the school's Ancient Greek club, preparing pupils for the Intermediate Certificate in Classical Greek. Supervised and advised sixth-form EPQ candidates. Trained to deliver the Lexonik Advance Literacy Intervention Programme.

West London Free School, Hammersmith · Second Placement Spring Term 2026
Taught Latin to Years 7–10 using the Latin Excellence Curriculum, and A level language and composition to Year 12. Also taught Classical Civilisation to Years 7–10. Delivered assemblies on examination preparation and revision methodology.

Resources and Curriculum Design 2022–present
Currently running and developing my Latin learning platform for GCSE, incorporating mastery-based progression, interactive grammar and vocabulary practice, and teacher-facing analytics. Previously wrote a scansion guide for A level Latin pupils, and comprehensive revision booklets for the Viking Age unit of OCR A level History, still in use at the West London Free School.

Private Tutor 2021–present
Worked with pupils from KS2 to KS5 for multiple subjects. Latin tutoring has included preparation for secondary admissions for primary-aged pupils, and the full OCR specification for GCSE and A level pupils. Additionally, prepared KS5 pupils for Oxbridge entrance examinations, guiding candidates through the process and conducting mock interviews. Mathematics tutoring has covered all content for GCSE, and pure mathematics and mechanics for A level.

CLASSICS, LATIN AND ANCIENT GREEK

I have studied Latin for fourteen years, progressing as a pupil through Minimus, the Cambridge Latin Course, and OCR's John Taylor texts, before achieving grade 9 at GCSE (OCR, 2020) and A* at A level (OCR, 2022). I attended **JACT Latin Summer School three times** (2019–2021), where I read prose authors, including Apuleius, Cicero, Sallust, and Seneca. Throughout my degree, I continued to develop my understanding of grammar and composition alongside my broader classical studies. I am now teaching Latin and am an appointed **OCR GCSE Latin Examiner for the 2026 series**.

Within Latin, I specialise in verse literature and composition. At Cambridge, I read Virgil's corpus and achieved a **First (71%)** in my final-year paper analysing the *Aeneid*. I won the **Cambridge Faculty Latin Prose Composition Prize** (2025) and the **Montagu Butler Prize for Latin Verse Composition** (2025), submitting 150 lines of original hexameter verse accompanied by a metrical and stylistic commentary. This year, I have also proofread a forthcoming publication on Latin verse by my former Cambridge supervisor.

I attended the **JACT Greek Summer School** at Bryanston in 2022, where I studied Ancient Greek for the first time. I continued the language for the first two years of my undergraduate degree and now assist with Trinity Academy's Ancient Greek lessons.

Within Classics, I am particularly drawn to art and archaeology. My A level Art Personal Investigation on ancient visual culture culminated in a 360° VR reimagination of ancient Troy, receiving the highest mark in my school cohort. My undergraduate dissertation examined the classicising rhetoric applied to female athletic bodies throughout history. I have also completed **three seasons of archaeological fieldwork** at Interamna Lirenas, Italy, under Dr Alessandro Launaro (Cambridge), where I worked as a trench supervisor and helped excavate the first coin hoard ever recovered at the site.

HISTORY

Achieved A* across every component of my A level: the Crusades and Crusader States; England 1445–1509; the Viking Age c.790–1066; and 39/40 in my topic-based essay on the Black Death. Examiner transcripts available.

Historical study, particularly of ancient Greece and Italy, also formed a significant part of my work at university.

MATHEMATICS

Achieved A* at A level and grade 9 at GCSE. Currently tutoring GCSE across the full specification; previously tutored A level pupils on pure mathematics and mechanics.
